A top-down view of a wooden desk. On the left is a book titled 'Oh, the Places You'll Go!' by Dr. Seuss, featuring a colorful, wavy pattern. A white smartphone with a play button icon on its screen is connected to a white charging cable and rests on the book. To the right is a spiral-bound notebook. A hand is holding a wooden pencil and a black ruler over the notebook. A red circular object is partially visible in the foreground on the right. The text 'EXECUTIVE SUMMARY' is overlaid in large white letters.

EXECUTIVE SUMMARY

INSIGHT 1

GEN Z STUDENTS SEE TECH AND CREATIVITY AS IMPORTANT AND INTERSECTING ASPECTS OF THEIR IDENTITIES

- Gen Z is considered to be more curious, innovative and open-minded than past generations – in part because they have grown up in the age of technology, which provides more outlets and digital tools for exploration and expression
- Both students and teachers think Gen Z is more creative than past generations
- Gen Z students say that they “are always looking for a better way to do something” and “create mostly using digital or online tools/devices”

“I have more digital tools and information on other people's ideas to inspire me when I feel creative.”

Student, AU

“They realise that anything is possible when they see that technology is constantly changing and improving.”

Teacher, AU

INSIGHT 2

GEN Z STUDENTS ARE EXCITED BUT NERVOUS FOR THEIR FUTURES, AND THEY DO NOT FEEL FULLY PREPARED FOR THE “REAL WORLD”

- Gen Z students have mixed emotions when it comes to their future after they finish school – they feel “excited” and “curious” but also “nervous” or “worried”
- Both students and teachers feel that Gen Z is only somewhat prepared for their futures after school
- Some students feel uncertain about finding a job and concerned that school has not properly prepared them for the “real world”

“School hasn't taught me any of the vital things like paying my bills and organising taxes, but they teach me how to properly do quadratics, etc. I am 100% unprepared to deal with actual real world challenges.”

Student, AU

“At the moment they are very hand fed for a particular pathway. They are not learning practical life skills. The curriculum is too much centered on covering everything and not important topics well. They need to understand the world..”

Teacher, AU

INSIGHT 3

GEN Z LEARNS BEST BY DOING AND CREATING,
AND STUDENTS AND TEACHERS ALIKE WANT
MORE FOCUS ON CREATIVITY

- Both students and teachers alike agree that Gen Z learns best through doing / hands-on experience (e.g., Lab work, creating content)
- Both audiences wish that there was more of a focus on creativity in the classroom
- Teachers say that having more opportunities for this type of hands-on learning is the number one way they can better prepare Gen Z students for the workforce, but teachers also feel that they need more tools and technology to nurture creativity

INSIGHT 4

CREATIVITY WILL PLAY A CRITICAL ROLE
IN THE FUTURE WORKFORCE

- Students and teachers agree that being creative will be essential to their future success, and that creativity is going to play an integral role in solving many of the challenges the world faces today
- Students believe that they will be creating things in their future career, and that there are a lot of professions that require creativity

INSIGHT 5

TECHNOLOGY WILL SET GEN Z APART IN THE FUTURE WORKFORCE

- Most say that increased access to digital tools and technology will make Gen Z more creative and better prepared for the future workforce.
- Computers and technology classes are the “sweet spot” – both a top class to prepare students for the future and a top class for creativity
- Teachers say that their students will one day have careers that we didn’t even know would exist today

DETAILED RESULTS

Both students and teachers characterize Gen Z as creative, curious and confident

Gen Z feel they are more creative than past generations; however teachers did not agree wholeheartedly

Q6: Which of the following words best describe [you / Gen Z]?
[MULTI-SELECT]

Gen Z Creativity Compared to
Older Generations

Q11: Do you think that [you are / Gen Z is] more creative, less creative or equally as creative as older generations? [SINGLE SELECT]

Modern infrastructure and technology gives Gen Z more opportunities to explore their curiosity

- Teachers and students agree that Gen Z enjoys more opportunities than past generations, such as access to technology and more freedom for self-expression.
- Gen Z is often positively associated with tech immersion and literacy, including social media, computers and cellphones. However, some worry that Gen Z students may be too reliant on technology.

Differences Between Gen Z and Past Generations

(Shown: Open End Responses)

STUDENTS

"Our generation is definitely different in how we learn, we are more reliant on technology than figuring things out ourselves compared to older generations where they constantly had to work things out without the answers being already on the internet." (AU)

TEACHERS

"I think because Gen Z have access to the whole world (via Internet) they realise that anything is possible so they set higher goals and aspirations. Gen Z are more creative, they know how to think and extend their thinking to find answers. Gen Z are more knowledgeable.." (AU)

Q7: What do you think are the biggest differences between [you / Gen Z] and older generations [like your parents' or grandparents' generation]? [OPEN END]

Technology provides more tools and inspiration for Gen Z creativity

- Gen Z students think that their creativity comes from access to a greater variety of tools, platforms, opportunities, and avenues to express oneself. Some also point to the ability to access other people's ideas as something that inspires their own creativity.
- Teachers say that Gen Z students have greater opportunities and are naturally exploratory.

How Gen Z is More Creative

(Shown: Open End Responses)

STUDENTS

"I have more digital tools and information on other people's ideas to inspire me when I feel creative." (AU)

TEACHERS

"Because they have so much electronic media at their fingertips, they don't have to spend time reinventing the wheel. Their efforts can be directed at NEW things, thoughts, and projects." (AU)

Q12: How [are you / is Gen Z] more creative than older generations? [OPEN END]

Gen Z students are innovative multitaskers that like to create using digital or online tools and devices

Perceptions of Gen Z & Creativity

Multi-tasking comes naturally to me / Gen Z	64%	51%

Q10: How much do you agree or disagree with each of the following statements?

Technology gives Gen Z unprecedented access to information and global connectivity...

- Gen Z sees interconnectivity, access to information, inclusion, and the greater variety of professional choices as their greatest advantages. This generation is filled with hope at this age and sees potential and possibility through the lens of technology and a global network.
- Teachers say that the ease of access and familiarity Gen Z has with technology opens a whole world of possibility.

Gen Z Advantages (Shown: Open End Responses)

STUDENTS

"We are more open minded. We follow our own pathways. We love technology and everything new. We are ready to learn new things." (AU)

TEACHERS

"They have technology at their fingertips, they are able to access such a wealth of resources everyday!" (AU)

Q8: What are the biggest advantages that [you have / Gen Z has] compared to older generations? [OPEN END]

...However, Gen Z also faces more pressure to keep up with technology developments and competition for job placement

- Teachers see the negative side in a globally connected world with global competition. Some also point to interpersonal, social, independent and logical thinking as skills Gen Z students are not adequately developing.
- Students are more concerned about their future job opportunities and global issues like the environment.

Gen Z Advantages (Shown: Open End Responses)

STUDENTS

"There is lots more pressure and social media is a constant source of drama and bullying." (AU)

TEACHERS

"It is almost too easy to find out information, so they feel they don't actually need to learn the information." (AU)

Q9: What are the biggest challenges that [you face / Gen Z faces] compared to older generations? [OPEN END]

Gen Z is excited and curious about the future after school, but many also feel worried or nervous

Q23: How prepared do you [feel for your / think your students are for their] future after [you / they] finish school? [SINGLE SELECT]

Both students and teachers are nervous about Gen Z's preparedness for the "real world" after school

How Gen Z is Unprepared

(Shown: Open End Responses)

- Students who feel unprepared for their future after school are uncertain about what they want to do for a career or are worried about their job prospects. Some also say what they learn in school is not adequately preparing them for the "real world."
- Teachers are also concerned that Gen Z is lacking "real-world skills," and many worry that they are too reliant on their families.

STUDENTS

"School is only a small aspect of the world and so when we finish school we will suddenly be exposed to the real world with a limited safety net. Secondly, in school we (generally) have not experienced problems faced by adults and are not use to the workforce lifestyle. We are also not accustomed to the intensity life after school possesses." (AU)

TEACHERS

"Lacking critical thinking and writing skills; not expected to take much ownership of their lives as minors, so not prepared to make adult decisions when they leave school; little to no training on making financial decisions." (AU)

Q25: What are some of the reasons why you [feel / think your students are] unprepared for [your / their] future after [you / they] finish school? [OPEN END]
